REPORT ON SWACHH BHARAT MISSION
THEME: SWACHHATA, SANSKAAR SWACHHATA
VENUE: - MINS COLLEGE OF NURSING, LATUR.

Time:-10:00am-12:30.

Introduction

The Swachh Bharat Mission (SBM) is a nationwide campaign launched by the Government of India on October 2, 2014, with the goal of improving sanitation and cleanliness across the country. The mission is aligned with Mahatma Gandhi's vision of a cleaner India and aims to eliminate open defecation, reduce the use of manual scavenging, and ensure solid and liquid waste management in both rural and urban areas. Here is a detailed report on the Swachh Bharat Mission:

Swachh Bharat Mission was celebrated on 24-10-2024 based on the theme: “**Swachhata, Sanskaar Swachhata**” at YCR Hospital, the programme was organized by B.Sc-V Sem students of MINS College of Nursing Latur the programme commenced at 10:00 am with Wel-Come note by Respected Principal Sir, Prof. Saravanan S.S, Principal of MINS College of Nursing, Latur.

The programme was inaugurated by distinguished dignitaries Dr. Mantri Madam, Dr. Male Dr. Vidya Kande, Mr. Shripati Munde and Mr. S. S. Saravanan.

OBJECTIVES OF SWACHH BHARAT MISSION:

- **Eradication of Open Defecation:** One of the primary objectives is to eliminate open defecation by constructing individual household toilets, community toilets, and public toilets.
- **Solid and Liquid Waste Management (SLWM):** Ensuring proper disposal, recycling, and treatment of waste in urban and rural areas.
- **Behavior Change Communication (BCC):** Raising awareness about hygiene and sanitation practices, encouraging communities to adopt sanitary habits and practices.
- **Cleanliness and Hygiene Promotion:** Improving the overall cleanliness and sanitation in rural and urban areas by involving local communities in maintaining cleanliness.

COMPONENTS OF THE MISSION:

The Swachh Bharat Mission is divided into two sub-missions:

- **Swachh Bharat Mission – Gramin (SBM-G):** Focused on rural areas, primarily tackling the problem of open defecation by constructing toilets and promoting sanitary practices.
- **Swachh Bharat Mission – Urban (SBM-U):** Focused on urban areas, with initiatives related to waste management, public toilet facilities, and cleaning public spaces.

KEY ACHIEVEMENTS:

- **Toilet Construction:** The mission has led to the construction of millions of toilets across the country. As of recent reports, India has moved closer to becoming open defecation-free (ODF) with numerous states declaring themselves as ODF.
- **ODF Status:** A significant number of villages, towns, and districts have achieved ODF status, with efforts in place to maintain it.
- **Behavior Change:** There has been a marked improvement in sanitation habits, especially in rural areas, where communities have been actively involved in the sanitation drive.
- **Increased Public Awareness:** The mission has significantly increased public awareness regarding the importance of hygiene, sanitation, and waste management.

CHALLENGES FACED:

- **Infrastructure Issues:** Despite the success, there remain infrastructure challenges, particularly in rural areas where there are still gaps in toilet construction and waste disposal systems.
- **Maintenance of Toilets:** One of the recurring issues is the proper maintenance and use of toilets once constructed, especially in rural regions.
- **Awareness and Education:** Changing ingrained behaviors and promoting sanitary practices in deeply rural and conservative areas remains an ongoing challenge.
- **Waste Management Systems:** In urban areas, proper waste segregation, recycling, and management systems still require substantial improvements..

INNOVATIONS AND TECHNOLOGY:

- **Technological Solutions:** The mission has introduced technological innovations like the Swachh Bharat App for citizens to report sanitation-related issues and monitor progress.
- **Sustainable Waste Management:** Several pilot projects focused on sustainable waste management, including waste-to-energy initiatives, composting, and decentralized waste treatment.

IMPACT ON HEALTH AND ENVIRONMENT:

- **Improved Health Outcomes:** The improved sanitation has led to a reduction in waterborne diseases and other sanitation-related health issues, particularly in rural areas.
- **Environmental Benefits:** By promoting waste segregation, recycling, and proper disposal, SBM has contributed to reducing the environmental impact of improper waste management.

FUTURE PROSPECTS AND SUSTAINABILITY:

While SBM has made significant strides, it is essential for the momentum to continue, focusing on:

- Ensuring the sustainability of toilet facilities, particularly in rural areas.
- Scaling up and improving urban waste management systems.
- Strengthening community involvement and participation in the maintenance of sanitation facilities.

CONCLUSION:

The Swachh Bharat Mission has undoubtedly made a remarkable impact on sanitation and cleanliness in India, but challenges remain. Its success depends not only on infrastructure development but also on fostering a sense of responsibility among the citizens for maintaining hygiene and cleanliness. The mission's long-term success will rely on continuous government efforts, public participation, and the adoption of innovative, sustainable practices.

Swachh Bharat Mission represents a major step toward making India a cleaner and healthier nation, but it requires ongoing commitment and improvements in policy, implementation, and public awareness for continued success.

Vote of thanks given by Mr. Pandurang Tonde.
